# Occlusion for Dental Implants and How it Impacts Clinical Success

## Course content

This presentation will discuss the various types of occlusion that can be used for restoring dental implants. Different aspects of biomechanical loading will be examined. In addition, the biological response to different types of implants will be compared along with the clinical documentation. This presentation will also discuss the importance of implant selection and treatment planning on long-term clinical success. An open discussion will follow the evening presentation.

At the conclusion of this course, participants will be able to:

- Understand the different aspects of biomechanical loading.
- Discuss implant selection and its importance on long-term clinical success.
- Familiarize themselves with the biological response to different types of implants.

*Astra Tech is committed to new and innovative knowledge, however, some presentations may include controversial material. Sponsorship by Astra Tech does not necessarily imply endorsement of a particular philosophy, procedure or product.*

Astra Tech is an ADA CERP Recognized Provider.

*ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.*

Astra Tech designates this activity for 5.5 continuing education credits.

## Speaker

**Dr. Faulkner** graduated from The Ohio State University in 1980. Following a one year hospital residency, he practiced General Dentistry in Northwest Ohio until 1990, when he returned to an Advanced Graduate Residency program in Prosthodontics at the U.C.L.A. School of Dentistry. Dr. Faulkner received his certificate in Prosthodontics in 1992 as well as a certificate in Maxillofacial Prosthetics in 1993. In addition, he

received full training through the U.C.L.A. Implant Center during his three year residency training programs. He has lectured extensively on several aspects of Prosthodontics and Implant Dentistry, both nationally and internationally. Dr. Faulkner is the director of The Ohio Center for Osseointegration and Restorative Dentistry, a state of the art continuing education facility for clinicians, technicians, and auxiliaries. He has a faculty appointment as a Lecturer for the Department of Removable Prosthodontics at U.C.L.A. Dr. Faulkner resides in Cincinnati, Ohio where he maintains a private practice limited to fixed and removable prosthodontics, maxillofacial prosthetics, and implant prosthodontics.

*The participation of this speaker has been made possible through support from Astra Tech Inc.*
